

Head Referee Report 2018-19 season
Emad Ghashghaee

Referee Assignor Report
Fall 2017/2018

Correspondence

- Coaches/managers

Thanks for your continued feedback. The feedback is used to assign referees for the appropriate level of games, as well as a development/feedback tool to our referees.

- Not all the teams are sending in feedback. Please take the time to fill in the feedback form- we would love to hear from you. Also, please let us know if a referee has done well in a game!

Referee Complaints

We received some formal referee complaints. The complaints were reviewed by Bruno and other Board members, with input and law clarifications from Emad. The referees were met in person, and their statements taken. Both complaints were resolved.

Referee Information

- For the first time, all MWSL games were officiated by all female referees! Also, all the MWSL games were mentored/assessed by BC Soccer assessors. The finals were a big success for the league and our refereeing program

- This season, we worked with BC Soccer to participate in its Referee Integration Program. All the leagues in the Lower Mainland and Vancouver Island exchanged referees. MWSL provided about 15 referees to the program. 12 of the MWSL were used in the program. Referees from the VMSL, Lower Island, Burnaby League and the FVL were used in those games. Overall, it was

a very successful program. We look forward to participating and contributing to the program next year.

- Over 40 new referees added to our pool since March 2018
- Reaching out to multiple head referees to provide opportunities to young and up and coming referees, especially assistant referees. Thank you to all the head referees who supported the MWSL refereeing program!
- Very few games without both assistant referees present
- Female referees were presented the opportunity to officiate Premier and Selects division games

Thanks for your continued support, and I look forward to a great 2019-20 season!
