

League Manager Report:

Welcome back everyone its great to be back up and running and we hope getting back out on the pitch has brought joy, laughter, healthy competition, and some sense of fulfillment to all of our members in these challenging times. I'm very happy to see we had most of our teams come back this year and welcome to those that are new to the league.

I know some of our teams are looking a little different after the time away from the game, some being stronger and some missing their key players and we hope that the shuffling we did do this year outside of promotion and relegation help that to a degree. As we move forward promotion and relegation will help balance out the divisions even more.

This year we were happy to finally get our first Over 40's division up and going, A big Thank You! to the teams that took the leap of faith to make this happen. It's only 5 teams this year but like our Masters divisions when we first started it, we are hoping it will expand and allow our members that have been with us for so long to continue playing the game we all love.

We are happy to report that the league was able to welcome back all our staff that allow us to keep the league going and running smoothly throughout the season. Thank you to Leslie Burkinshaw our League Scheduler, Emad Ghashghaee, Head Referee, Meegan Maultsaid, Referee Liaison, Anna Popal, League Assistant, Andrea Berry, League Assistant, who all got right back to it once we were allowed to open again.

Some new things we are trying to get up and going for the future include a 7v7 tournament in the spring, and Goalie Clinics for our members stay tuned for more information on those two items.

Changes and reminders:

Website: We are always updating and improving the website Throughout the past year we have been fine tuning some of our back end to help us function better. Stay tuned for upcoming pages and features and let me know any feedback you may have.

Payment Options: With the option of E-transfers as a reminder please note your team's name and division so that I am not searching for the player especially when your parent may have paid with there account.

Reminder:

As always when emailing me please include your team's name and division, with the large number of teams and things going on it can be a little confusing and time consuming to look you up to see what team and division you are on. I look forward to the next year and continuing to improve and streamline things for the ease of the members and the office.

Thank you,

Jo-Dee Stanley
